

RECEIPT AND KITCHEN PRINTERS

Use Radiant's fast, reliable and easy loading printers to quickly print receipts in the front-of-house and orders in the back-of-house. Whether it's thermal printers for POS receipts or impact printers for the kitchen, Radiant printers are fast, compact, user friendly and easily maintained.

- Manufactured by Epson America, world leader in printer design
- 5.9-inch/second print speed (thermal)
- Print one original plus one copy (impact)
- Drop-in paper load with auto cutter and take-up

QUALITY POWER CONDITIONERS

Restaurant locations have more power spikes, surges and outages than any other kind of business location. Have peace of mind knowing that your valuable equipment is protected from every day power problems. Keep these problems from disrupting your customer service and making it harder to run your business.

- Avoid the expense of commercial electrical work
- Built in UPS keeps you running through power "blips"
- Advanced electronics protect equipment from "kitchen surge" better protection from lightning than power strips

HARDWARE INTEGRATION TRAYS

Get the most out of your valuable counter space with Radiant's hardware integration trays. Consolidate your POS terminal and related peripherals into a package that is as neat and compact as possible.

- Dedicated space for Radiant's P1500 or P1200 Series POS, Epson receipt printer, keyboard and M-S Cash Drawer
- Conceals cables for a clean look on the countertop
- Made from quarter-inch molded ABS plastic

HARDWARE SOLUTION PROFILE

for the hospitality industry

Radiant Systems point-of-sale (POS) terminals, kitchen display systems, kiosks, back office PCs and peripherals are designed to maximize simplicity and speed in every part of your restaurant's operation. Radiant Hardware takes orders faster up front, routes them more precisely for kitchen staff, presents them more fully to customers and records them more securely for management.

Built from the ground up to withstand long hours of constant use, spills, dirt, grease and other harsh conditions common to restaurants, Radiant Hardware also minimizes costly and disruptive downtime. Day in and day out, Radiant Hardware increases sales and customer satisfaction while keeping cost down.

M-S CASH DRAWER

- Powered directly from POS serial port

SYMBOL LS2208 HANDHELD SCANNER

- Hands-free and handheld modes
- Compact, light-weight and ergonomically designed
- Laser scanner offers exceptional performance
- Additional scanner options available

HARDWARE SOLUTION

➤ ENTER ORDERS FASTER

Serve more customers quicker with larger and brighter displays, faster main processors, mobile order taking and customer-driven payment options.

➤ INCREASE ORDER ACCURACY

Attain 100% order accuracy with multi-media customer displays that show every receipt line item.

➤ SPEED UP FOOD PRODUCTION

Increase kitchen productivity and accurate order preparation with fully integrated kitchen display.

➤ IMPROVE DATA SECURITY

Use top-of-the-line back office PC equipment that prevents data loss while physically securing your system.

➤ MAXIMIZE UPTIME

Eliminate technology-related service interruptions with innovations such as fan-less cooling, solid state electronics and industrial power supplies.

➤ MINIMIZE DISRUPTION

Install hardware systems quickly and maintain them with minimal impact to operations, low effort and low cost.

➤ INVEST WISELY

Get the best benefits you can buy at a price that is highly competitive.

Radiant Systems provides faster, brighter, cooler, quieter, tougher and better connected point-of-sale terminals. The P1500 and P1200 series terminals run longer than competitive products and return to service faster when maintenance is required, providing categorically better performance and outstanding value. Choose the P1500 series when maximum screen size and the highest performance options are required, or the P1200 series when compact size, flexible installation scenarios and acquisition cost are the highest priorities.

C500 GRAPHICAL CUSTOMER DISPLAY

Increase Order Accuracy

Reduce costs by allowing your customers to review their order as it is entered – cutting waste and improving customer satisfaction in the process. Increase sales by improving speed of service and engaging your customers at the moment of decision with high-impact marketing promotions.

- ▶ All items, modifiers and totals are displayed in real-time, reducing errors, speeding service and deterring theft
- ▶ Graphics, video and logos drive up-selling, up-sizing, product promotions and special offers during every sale
- ▶ Full integration with the point-of-sale terminal eliminates bulky add-on hardware

C1200 INTERACTIVE CUSTOMER DISPLAY

Consistent Up-selling and Faster Transaction Times

Boost sales and delight customers. Provide customers complete order confirmation and the faster, easier payment options they enjoy today at other locations. Get the most out of gift card and loyalty programs.

- ▶ Bright 12-inch color touch screen display allows customers to view their order details and pay quickly and easily
- ▶ Customer-facing magnetic stripe reader for quick and easy credit card purchases as well as gift card and loyalty program transactions
- ▶ Full-motion video, animation, logos and other graphics boosts your sales, your brand and your image

KITCHEN DISPLAY SYSTEMS

Faster and More Accurate Order Preparation

Move orders from the front-of-house to the kitchen quickly and accurately to help your employees prepare the right food fast. See at a glance where delays might be affecting customer service. Avoid the confusion of lost or illegible order slips.

- ▶ 15-inch flat panel LCD for easy, quick order viewing
- ▶ Wall, ceiling and radial arm mounts to fit at any prep station
- ▶ Completely sealed "beeping" bump bar for fast, confirmed user input
- ▶ Support for option kitchen receipt printer to confirm order contents
- ▶ Highly ruggedized solid state design to withstand harsh kitchens

BACK OFFICE PC WORKSTATIONS

Maximum Uptime and Data Security

Keep operations running smoothly by ensuring that site data is always secure and backed up. Rest easy knowing that back office PCs can be returned to service quickly if anything ever does go wrong.

- ▶ Exact long-term part availability to ensure consistent deployments and fast return-to-service
- ▶ Fast processors and drives get work done quickly
- ▶ Advanced hard drive option provides constant, no hassle backup
- ▶ Quiet, cool running design provides reliable, long life
- ▶ Locking case prevents theft and tampering

TABLET POINT-OF-SALE

Peak Time Line Busting and Tableservice Order Entry

Mobile technology now allows new options to keep up with order taking at peak times and ensure smooth, quickservice. Use mobile POS terminals for line-busting and ableservice applications, including order taking and payment.

- ▶ Compact design provides full POS user interface with small size and light weight
- ▶ Very rugged enclosure and solid state design for restaurant reliability
- ▶ High bright screen option allows effective use in out-of-door applications
- ▶ Auxiliary battery pack and chargers allow for seamless full-shift operation
- ▶ MSR and Bluetooth mobile printer options allow for mobile payment

SELF-SERVICE KIOSKS

Maximize Up-Selling and Labor Efficiency

Maximize your revenues with a platform that never forgets to upsell. Optimize your labor and throughput of your kitchen by re-tasking personnel from order taking to food making. Take the next step in customer satisfaction with 100% order accuracy and the highest speed-of-service.

- ▶ Bright 15-inch touch screen with high performance computer processing
- ▶ High-speed thermal printer to deliver order numbers and customer receipts
- ▶ Sleek, modern design enables maximum flexibility for placement in high customer traffic areas
